5. Education and engagement approaches

5.1 Education and engagement with learners

- The setting will establish and embed a whole school culture and will raise awareness and promote safe and responsible internet use amongst learners by:
 - ensuring our curriculum and whole school approach is developed in line with the UK Council for Internet Safety (UKCIS) '[Education for a Connected World Framework](#)' and DfE '[Teaching online safety in school](#)' guidance.
 - ensuring online safety is addressed in Computing, Relationships Education and through PSHE.
 - reinforcing online safety principles in other curriculum subjects as appropriate, and whenever technology or the internet is used on site.
 - implementing appropriate peer education approaches.

- creating a safe environment in which all learners feel comfortable to say what they feel, without fear of getting into trouble and/or being judged for talking about something which happened to them online.
 - involving the DSL (or a deputy) as part of planning for online safety lessons or activities, so they can advise on any known safeguarding cases, and ensure support is in place for any learners who may be impacted by the content.
 - making informed decisions to ensure that any educational resources used are appropriate for our learners.
 - using external visitors, where appropriate, to complement and support our internal online safety education approaches and seeking guidance from 'Using External Visitors to Support Online Safety Education: Guidance for Educational Settings'.
 - providing online safety education as part of the transition programme across the key stages and/or when moving between establishments.
 - rewarding positive use of technology through dojo points and other positive reinforcements outlined in the school's behaviour policy.
- Joydens Wood Infant School will support learners to understand and follow our acceptable use policies in a way which suits their age and ability by:
 - displaying acceptable use posters in all rooms with internet access.
 - informing learners that network and internet use will be monitored for safety and security purposes, and in accordance with legislation.
 - seeking learner voice when writing and developing online safety policies and practices, including curriculum development and implementation.
- Joydens Wood Infant School will ensure learners develop the underpinning knowledge and behaviours needed to navigate the online world safely, in a way which suits their age and ability by:
 - ensuring age appropriate education regarding safe and responsible use precedes internet access.
 - teaching learners to evaluate what they see online and recognise techniques used for persuasion, so they can make effective judgements about if what they see is true, valid or acceptable.
 - educating them in the effective use of the internet to research, including the skills of knowledge location, retrieval and evaluation.
 - enabling them to understand what acceptable and unacceptable online behaviour looks like.
 - preparing them to identify possible online risks and make informed decisions about how to act and respond.
 - ensuring they know how and when to seek support if they are concerned or upset by something they see or experience online.

5.2 Vulnerable Learners

- Joydens Wood Infant School recognises that any learner can be vulnerable online, and vulnerability can fluctuate depending on their age, developmental stage and personal circumstances. However, there are some learners, for example looked after children and those with special educational needs, who may be more susceptible or may have less support in staying safe online.
- Joydens Wood Infant School will ensure that differentiated and appropriate online safety education, access and support is provided to vulnerable learners.
- The school uses Barefoot computing as part of the school's computing policy and Jigsaw as part of the school's PSHE policy. When looking for clear guidance when delivering online education all staff should refer to these policies for support with differentiation.

 - build on existing expertise by provide opportunities for staff to contribute to and shape our online safety approaches, including curriculum, policies and procedures.

 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before their use in the school is permitted.
 - ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that access is appropriate.
 - recognise that due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our systems or devices and as such identify clear procedures to follow if breaches or concerns arise.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence. This is clearly outlined in our acceptable use of technology policies and highlighted through a variety of education and training approaches.

Annually governors and leaders will review www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring to ensure the appropriate monitoring and filtering is in place in the school. At present all monitoring and filtering is maintained by external provider EIS.

7.3.1 Decision making

- Joydens Wood Infant School governors and leaders have ensured that our school has age and ability appropriate filtering and monitoring in place to limit learner's exposure to online risks.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- The governors and leaders are mindful to ensure that "over blocking" does not unreasonably restrict access to educational activities and safeguarding materials.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

7.3.2 Appropriate filtering

- Joydens Wood Infant School's education broadband connectivity is provided through EIS.

- Joydens Wood Infant School uses Light Speed Filtering

 - Light Speed Filtering is a member of [Internet Watch Foundation](#) (IWF) and blocks access to illegal Child Abuse Images and Content (CAIC).
 - Light Speed Filtering integrates the 'the police assessed list of unlawful terrorist content, produced on behalf of the Home Office'.
- We work with EIS support to ensure that our filtering policy is continually reviewed to reflect our needs and requirements.
- If learners or staff discover unsuitable sites or material, they are required to
 - 1) STOP – don't click
 - 2) TELL someone!

Staff members are required to report this incident on CPOMs including the children that were involved. Filtering breaches will be reported to the DSL (or deputy) and technical staff and will be recorded and escalated as appropriate.
